

LOCAL MATTERS.

The Adams Express Company places its daily under obligations to it for the very latest papers from the eastern cities.

The American Express Company has our thanks for the daily favors in the shape of the very latest eastern papers.

An Incident.—Capt. Mose's company of Zanesville Blues came up to this city yesterday, to go into camp. In passing from Headquarters to Camp Jackson, they halted in front of the Statesman building, and gave three rousing cheers for the Ohio Statesman. The editor, just returning from the press-room of the building, and without any previous notice, happened to appear at the front entrance of the business office just as the hearty cheers of the noble men from Old Muskingum were being given with a hearty good will. Immediately the call was made for Col. MONTGOMERY, and he mounted a large box of Muskingum coal which was on the sidewalk, and addressed Capt. Mose and his command in a sincere and affectionate manner. He concluded by exhorting them to do their duty and endure hardships like good soldiers, and expressed the opinion that they would conduct themselves as that, when the war was ended, they would return to their homes conscious that every duty prompted by courage or inspired by patriotism had been faithfully performed by them. His remarks were listened to attentively and received with great satisfaction.

Capt. Mose's command consists of ninety poked men, of the soldierly bearing, and are a noble set of fellows. Our best wishes accompany the Zanesville Blues.

CAMP JACKSON.—Since our report of yesterday afternoon, the following Companies have been reported at headquarters at the Camp:

Co. W. W. Moore, Zanesville Blues..... Men. 30
Co. W. W. Moore, Zanesville Blues..... 30
Co. W. W. Moore, Zanesville Blues..... 30
Co. W. W. Moore, Zanesville Blues..... 30

The total number of men reported on duty at the Camp, at two o'clock this afternoon, was 7,836.

Fifteen companies—the Eleventh Regiment and five companies belonging to the Third, will leave Camp Jackson for the east at five o'clock to-morrow morning.

The Fourth Regiment has been organized by the election of the following officers:

Colonel, LOUIS ANDREWS, of Knox county; Lieutenant Colonel, JAMES CANTRELL, of Hardin; Major, JAMES H. GOODMAN, of Marion.

The Third, Twelfth and Thirteenth Regiments are to elect their officers this afternoon.

As the Governor can only accept the thirteen regiments called for by the President, and ten regiments for the State service, it is probable that the number of troops in Camp Jackson and the other Camps in the State will be gradually diminished, unless a further requisition should be made by the General Government.

THE IMMORTAL "J. N."—This heroic philosopher, patriot and orator honored us with a brief visit to day. He recognizes full well the great jealousy that must necessarily exist against the most powerful thinker of this or any other age. Like the great Oriental philosopher of the most ancient time, he intends again to incarnate himself for a season as a willing martyr to the cause of Truth and Righteousness. Not that he fears bolts, chains and dungeons—these have no terror for him—but in serene contemplation, he loves to acquire, that he may give to the world lessons of spiritual wisdom. Farewell, "J. N." We never shall look upon thy like again!

[For the Ohio Statesman.]

Surgeons should pay particular attention to the advertisement in another column from the Board of Medical Examiners.

In estimating the experience of Surgeons, a year of hospital attendance will be estimated as equal to two years of ordinary experience.

Good bodily health, such as would be necessary to gain admittance to the regular army service, will be required. This matter will be determined by the Board.

The certificate called for by the advertisement should be specific, and should be placed on file with the Secretary as speedily as possible. No candidate will be admitted till the pre-requisites are strictly complied with.

REPORTED FOR THE STATESMAN.

New York, April 26.—The following dispatch was received by Postmaster Taylor this morning:

The route to Washington via Annapolis is now open, and we shall dispatch a train here daily at 11:30 A. M. A line will be started daily from Annapolis, to connect with our line up, which will arrive here at 9:30 P. M. The mails can be taken by this route.

(Signed) Pres. Phil. W. & B. F. R. T.

A gentleman just returned from the South, says no vessels are permitted to leave the port of Wilmington, N. C., and those loading have been obliged to discharge their cargoes.

The commander of Fort Caswell, at the mouth of Cape Fear river, N. C., would not permit any vessels to pass the Fort. No seizures of vessels had been made.

The steamer Starling sailed today, with sealed orders, and rigged with two broadside guns and four flying artillery.

The frigate Constitution sailed for Annapolis yesterday evening, with the mail of the Naval Academy. Collector Barney has received important dispatches from Washington. The report is unknown.

The Keystone State reports no armaments at the Potomac, nor cannon on the banks, as reported.

The frigate Cumberland and other vessels are at Fort Monroe.

The American Telegraph Company will commence receiving messages for Washington in the morning. Those deposited in the office before half past one of each day will reach Washington the same evening. Arrangements are being made, by which almost an hourly communication will be maintained with Washington. The Press will thus be enabled to furnish a fuller and more reliable idea of the state of affairs at Washington, than they have done for some days past.

The steamer Starling sailed today, with sealed orders, and rigged with two broadside guns and four flying artillery.

When at Annapolis yesterday morning, he distinctly heard several sharp volleys; wherefore he thinks communication has been forced open between the Potomac and the Chesapeake.

The steamer Maryland arrived at Annapolis Thursday morning, with naval officers and men, and a good supply of guns, to fortify Annapolis. She passed, Thursday P. M., the steamer De Soto, and the rest of the fleet of two small vessels. They were crews of captured light ships, or Union men fleeing from their lives from Virginia.

The lights on Capes Henry and Charles were extinguished, and the ship transferred from its station at the mouth of the Potomac.

The officers of the Columbia fear the Potomac has been taken. The fears are probably unfounded.

The Government has chartered several more steamers.

Senator Wilson has been commissioned by the Government to obtain large guns for the defense of Annapolis, and two additional regiments from Massachusetts.

Wood's Hair Restorative has acquired a reputation from actual test and experience which cannot be enhanced by newspaper puff.

In our own vicinity it has been extensively used, and we believe in every case with every desired result, and receives the universal endorsement of all who have tried it. We therefore recommend it as one of those genuine nostrums which accomplish all it professes, and all the bald and gray could desire.—Columbia Spy.

Good.—We met one of our friends yesterday on Broadway, and were astonished at the change in his appearance. A few weeks ago we saw him, he was pale, lean and dejected, complaining of weakness and debility, having been so afflicted all summer. Now he appears to be fat, healthy and strong. We learned he used his hair restorative entirely to McLEAN'S STRENGTHENING CORDIAL.

We advise all who are complaining of General Debility to try it; it is certainly a very pleasant remedy. We learn that there are large quantities of it selling daily.—Morning Herald.

THE EIGHTH WONDER OF THE WORLD.—Not the Atlantic Cable, nor the Great Eastern, but James Pyle's Dietetic Salesman, that always makes good, light, wholesome bread, biscuits and cake, preserves health, and is the best and most economical leaven in the world. Everybody wonders at it. Depot, 345 Washington street, New York. Sold by all grocers everywhere.
